- Soft Skills: Teamwork, Problem Solving

PROJECTS

- **FindBack Mobile Application**
Developed a mobile application to help users report and recover lost items using Java (Android), PHP and data handling.
- **Online Book Store**
Built a full-stack web application for browsing and purchasing books. Designed both user and admin interfaces, including product management, order handling, and database integration using PHP, MySQL, HTML, CSS, and JavaScript.
- **Movies Website (Frontend)**
Built a responsive movie browsing website using HTML, CSS, and JavaScript, featuring dynamic UI components and user-friendly design.
- **Bus Registration System (PHP)**
Created a registration system for bus scheduling and user bookings using PHP.
- **Movies Mobile App**
Designed and developed a mobile application for browsing movies with a smooth user experience.
- **University Database System**
Implemented a relational database for managing university data using PHP.
